

NEVER
FORGET

MISSION

Our mission is to provide a legacy for present and future generations, educating them on the constitutionally established guarantee of liberty in America by remembering and honoring the courageous service given and the monumental sacrifices made by our veterans to preserve a governing system free of tyranny and despotism.

Our focus is centered on World War II, primarily because this was the time in history where the entirety of the human population came closest to seeing all liberty taken away.

We will not attempt to tell the whole story of World War II, either chronologically or geographically; we will focus instead on the service and wartime experiences of Americans from the heartland of America with its center in Oklahoma.
